

Tersus GeoCaster (V1.0.0.3)

Jul 08, 2019

Overview

Tersus GNSS Inc. ("Tersus") is glad to release Tersus GeoCaster Tool. It is available for download at <https://www.tersus-gnss.com/software/oscar-receiver>.

Features

The Tersus Caster is a Networked Transport of RTCM via Internet Protocol (NTRIP) Caster software which allows GNSS correction data such as RTCM corrections to be repeated and sent to different end users via internet. It supports configurable bases online simultaneously and configurable rovers for one base.
