Oscar GNSS RTK Receiver
with Calibration-Free Tilt Compensation
Empowered by a high precision inertial measurement unit (IMU) on Ultimate version, Oscar GNSS receiver from Tersus is a new generation of tilt survey GNSS receiver. This kind of calibration-free tilt compensation is immune to magnetic disturbances. Oscar gives a surveyor unprecedented flexibility and efficiency — holding the survey pole upright is no longer necessary.

With an internal high-performance multi-constellation and multi-frequency GNSS board, the Oscar GNSS Receiver can provide high accuracy and stable signal detection.

The built-in high-performance antenna can speed up the time to first fix (TTFF) and improve anti-jamming performance. With a Nano-SIM card inserted in Oscar, it can access Internet, transmit and receive correction data through 4G/WiFi network. The built-in UHF radio module supports long distance communication. The built-in large capacity battery is detachable and can display power level. Two batteries support up to 16 hours of fieldwork in 4G/3G/2G network and Rover radio mode. Oscar can be easily configured with 1.54 inch interactive screen on Ultimate and Advanced versions. The rugged housing protects the equipment from harsh environments.

Customers also have an easy backup from Tersus Caster Server (TCS), so that a GNSS BASE station can be quickly set up to broadcast correction stream via mobile networks instead of radio. Natively supported by FieldGenius and Nuwa App, Oscar can be configured to different work modes to suit various daily jobs. Also pillared by the prompt technical supports from Tersus’ global partner network, Oscar GNSS receiver is a surveyor’s capable and reliable workmate.
Key Features

- Supports multiple constellations & frequencies: GPS, GLONASS, BeiDou, Galileo, SBAS, QZSS
- Supports 576 channels
- Tilt compensation without calibration, immune to magnetic disturbances
- Smart battery displays power level, two batteries supports up to 16 hours working in 4G/3G/2G network and Rover radio mode
- IP67-rated dust- & waterproof enclosure, for reliability in harsh environmental conditions
- 16GB/8GB internal storage
- 410-470MHz UHF radio, 4G network, Wi-Fi, Bluetooth, NFC
- Free subscription of Tersus Caster Service (TCS): transmit the correction data from Oscar Base to Rover via internal 4G network or controller network

Controllers & Survey Apps

Windows Platform

- TC30
- T17M

Android Platform

- TC20
- smartphone

Free subscription of Tersus Caster Service (TCS): transmit the correction data from Oscar Base to Rover via internal 4G network or controller network
### Performance

**Single Point Positioning Accuracy (RMS):**
- Horizontal: 1.5m
- Vertical: 3.0m

**DGPS Positioning Accuracy (RMS):**
- Horizontal: 0.4m
- Vertical: 0.8m

**SBAS Differential Positioning Accuracy (RMS):**
- Horizontal: 0.6m
- Vertical: 1.2m

**High-Precision Static (RMS):**
- Horizontal: 3mm+0.1ppm
- Vertical: 3.5mm+0.4ppm

**Static & Fast Static (RMS):**
- Horizontal: 3mm+0.5ppm
- Vertical: 5mm+0.5ppm

**Real Time Kinematic (RMS):**
- Horizontal: 8mm+1ppm
- Vertical: 15mm+1ppm

**Network Real Time Kinematic (RMS):**
- Horizontal: 8mm+0.5ppm
- Vertical: 15mm+0.5ppm

**Observation Accuracy (zenith direction):**
- C/A Code: 15cm
- P Code: 20cm
- Carrier Phase: 1mm

**Time To First Fix (TTFF):**
- Cold Start: <35s
- Warm Start: <10s
- Reacquisition: <1s

**System & Data**

- **Operating system:** Linux
- **Storage:** built-in 16GB/8GB [1]
- **Data format:** CMR, RTCM 2.1/3.x
- **Data output:** RINEX, NMEA-0183, Tersus Binary
- **Data update rate:** 20Hz

**Physical**

- **Display:** 1.54" OLED [2]
- **Dimension:** 157x157x103mm
- **Weight:** 1.2kg (without battery) or 1.4kg (with a battery)
- **Operating temperature:** -40°C ~ +75°C
- **Storage temperature:** -55°C ~ +85°C
- **Relative humidity:** 100% not condensed
- **Dust & Waterproof:** IP67
- **Pole drop onto concrete:** 2m

**Electrical**

- **Input voltage:** 9~28V DC
- **Power consumption (typical):**
  - Network or Radio receive mode: 5W
  - Radio transmit mode (0.5W): 8W
  - Radio transmit mode (2W): 11W
- **Lithium battery:** 7.4V 6400mAh x2 [3]

**Communication**

- **Network Protocols:** Ntrip Client, Ntrip Server, Tersus Caster Service (TCS)
- **Wi-Fi:** 802.11b/g/n [2]
- **Bluetooth:** 4.1
- **Internal Radio**
  - RF transmit power: 0.5W/1W/2W
  - Frequency range: 410MHz ~ 470MHz
  - Operating mode: Half-duplex
  - Channel spacing: 12.5kHz / 25kHz
  - Modulation type: GMSK, 4FSK
  - Air baud rate: 4800 / 9600 / 19200bps
  - Distance (Typical): >5km
- **Radio protocols:** TrimTalk450, TrimMark 3, South, Transparent, Satel
- **USB OTG:**
- **Serial ports:** RS232 1x
- **COM baud rate:** up to 921600bps

**Software Support**

- Tersus Nuwa
- MicroSurvey FieldGenius

**Note:**
1. Details refer to performance comparison table.
2. Oscar uses one battery at a time, the other is a substitute. Each battery lasts up to 8 hours when Oscar works in 4G/3G/2G network and Rover radio mode. Two batteries add up to 16 hours of continuous use.
3. Hardware of Wi-Fi module is ready, the function will be supported by firmware update.
## Version Comparison

The Oscar GNSS Receiver has three versions: Ultimate, Advanced, and Basic. It provides selectivity for the requirement from different users.

### Common Specifications

- Supports 576 channels
- GPS L1C/A, L2C, L2P, L5; GLONASS L1C/A, L2C/A; BeiDou B1, B2, B3; Galileo E1, E5A, E5B; QZSS L1C/A, L1C, L2C, L5; SBAS (EGNOS, WAAS, MSAS, GAGAN) L1C/A
- Integrated GNSS Antenna
- FN, ON/OFF buttons
- Bluetooth; NFC; UHF Radio; 4G
- Electronic Bubble
- USB OTG
- 2x 6400mAh Battery Capacity
- Smart Battery with power display
Tersus GNSS Inc.

Global Accuracy Easier

Tersus is a leading GNSS solution provider – we research, engineer, and manufacture GNSS products for high-precision positioning applications. The product family spans a broad spectrum, from GNSS OEM boards to integrated solutions, such as the David GNSS Receiver, Oscar GNSS Receiver, MatrixRTK, and GNSS Aided Inertial Navigation System. Tersus GNSS products have been widely adopted in numerous industries: surveying, GIS, construction, UAV, automation, precision agriculture...the list continues.

What is Tersus GNSS to you?

Tersus GNSS is proud. Being one of the few qualified players in the GNSS arena, we offer you state-of-the-art GNSS equipment made by our own.

Tersus GNSS is humble. We listen and adapt. We work diligently with global partners to ensure you get the best products and most satisfactory services.

Tersus GNSS is ours. We work with each other, challenge each other, and help each other. We learn together, win together, and celebrate together.

Most importantly, Tersus GNSS is also yours. Your feedback helps us improve and your expectations spur us on to become great rather than just good. Accompanied by Tersus GNSS, your success is encouraging, and your joy is shared.
